

THE DEEP TIME JOURNEY NETWORK:
**A GLOBAL SOCIAL AND EDUCATIONAL
NETWORK EMPOWERING EVOLUTION**

Where do we come from? Where are we going? What are we part of? Humanity is discovering a stunning picture of the universe and Earth. What is this astounding story that we all share, and what significance does it have for human consciousness and how we think about the Cosmos, Earth, humanity, our personal lives and our collective future? These questions, a love of learning about scientific discoveries, and wanting my son to know this grand story propelled me to write books for children and to found the Deep Time Journey Network. Please do come to our site, look at resources and events posted by members, the conversations, and our professional development programs. What's your story? How does a deep time perspective inform your world view and work? Do you see that a deep time perspective is itself empowering evolution? We'd love to hear from you.

Jennifer Morgan, President, Deep Time Journey Network

The Deep Time Journey Network is a global social and educational network with over 800 members – in over 20 countries – exploring a grand narrative of the universe as a foundational context for understanding everything. We are teachers, leaders of all

kinds, artists, scientists, musicians, activists and much more. What draws us all together is understanding that this emerging story is of huge significance. The Network is a way to find out who's doing what, where. Members add their profiles, resources they've created themselves, and those they recommend, post events, and engage in forum discussions.

Professional Development

The Deep Time Journey Network offers professional development (PD) programs for teachers of young people ages 0 to 18 with certified hours that are recognized by the American Montessori Society and most public and private schools. Programs that are already available include:
